Disclaimers:

1. Ink droplets can be placed with a pitch of 1/4800 inch at minimum. 2. Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc. 3. 1-11 in US, CND, LTN, BRA, TW and HK. 4. Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warming up time. 5. Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. 6. Colour document scan speed is measured with ISO/IEC 29183 Target A. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size etc. 7. The amount of image extension beyond the paper cannot be adjusted. 8. Declared yield value in accordance with ISO/24711 Values obtained by continuous printing. 8. Scan related applications on PIXMA Cloud Link is only available when genuine ink cartridges are in use
