# *SELPHY CP910*
Compact Photo Printer

Canon

# *INSTANT* PHOTOS ARE BACK, PRINT *DIRECT* FROM YOUR SMART DEVICE.

## Finally your photos can escape.

Thanks to the Selphy CP910, celebrating your special memories has never been more convenient. It is the perfect solution to those who want fast prints with superb quality and ultra portability. It makes sure you look your best with the ability to automatically correct bad lighting, detect faces and enhance colour. What's more, its AirPrint™ enabled, making wireless printing from your iPhone, iPad and iPod touch almost effortless. Don't have Wi-Fi? No problem. The new access point mode allows you to directly connect your smart device or wireless camera without the need of a network.

## Key Features

- **Photo lab quality prints:** delivered in high speeds of approx 47 seconds.
- **AirPrint™ compatible:** Print easily from your iOS device.
- **Mobile and Tablet Printing**: iPad, iPhone, Android and Windows RT.
- **Direct Wi-Fi photo printing:** From compatible cameras, mobile phones or computers using Wi-Fi, PictBridge, memory cards or a USB.
- **Built-in access point:** Print without the need the need for a router from your smart device.
- **Image Optimise:** Automatically adjusts brightness, tone and contrast to the perfect balance!
- **Selectable Print Finish:** Get the print finish you want without the hassle of switching photo paper! 3 types of finish available.
- **Optional battery pack** lets you print any time, anywhere! (NB-CP2L)
- **Advanced ID photo function:** With 43 sizes available, it can suit the ID needs of any individual or business.
- **100 year print life:** A special lamination process puts a protective coating on photos to protect them from water and smudging.

***Long Lasting Prints***
Memories should last forever, and thanks to the Selphy CP910 they can. Canon printing technology produces bright, vibrant prints that if stored correctly in an album, will retain their colour and vibrancy for up to 100 years.

***Perfect People Prints***
Selphy makes sure you are always looking your best by adjusting the brightness for superb, natural-looking results.

***Sharp Previews***
2.7" TFT LCD screen for vivid bright and sharp images to view and share your photos.

***Red-eye Correction***
Forget photoshop, the Selphy CP910 has in-printer red-eye correction which restores eyes to their natural look without the need for a computer.

***Click-Connect-Print***
Print photos directly from compatible digital camera, smartphones and tablets.

***Ultra Fast***
Say goodbye to waiting for your photos to arrive. The Selphy CP910 can deliver lab-quality prints in as little as 47 seconds- as long as it takes for your Instagram photo to upload!

***Print Anywhere***
With the addition of the optional battery and charger (NB-CP2L and CG-CP200), the Selphy CP910 becomes a truly portable printer. Perfect for parties, holidays and even weddings.

Subject to change without notice

**All data based on Canon's Standard Test Method**

**DISCLAIMERS**

1. Print time is measured from the time when yellow printing begins and does not depend on the number of pixels of the printing image or the type of memory card.
2. Requires optional paper cassette
3. The aspect ratio for bordered prints depends on the original aspect ratio of the image. The values in the table are for images shot at the 4:3 aspect ratio with PowerShot series and IXY DIGITAL series models.
4. Other memory cards (including adapters) can be used if they are the right shape and have compatible electronic specifications.
5. Does not support wireless LAN
6. Mac OS X (v10.9) are supported by means of downloading the exclusive driver from Canon homepage.
7. CG-CP200 is required when using NB-CP2L
