COLOUR MULTIFUNCTIONAL
FOR A3 FORMAT

RELIABLE AND HIGHLY PRODUCTIVE COLOUR DEVICES

KYOCERA
Document Solutions

SHAPING THE FUTURE OF DOCUMENT SOLUTIONS TODAY.

Designed for businesses of all sizes, TASKalfa defines colour multifunctional devices in a whole new way, delivering the power, performance, quality and ultra-reliability that your business demands. So whether you print, scan, copy or fax – in colour or black & white – this series will become an essential partner to your business.

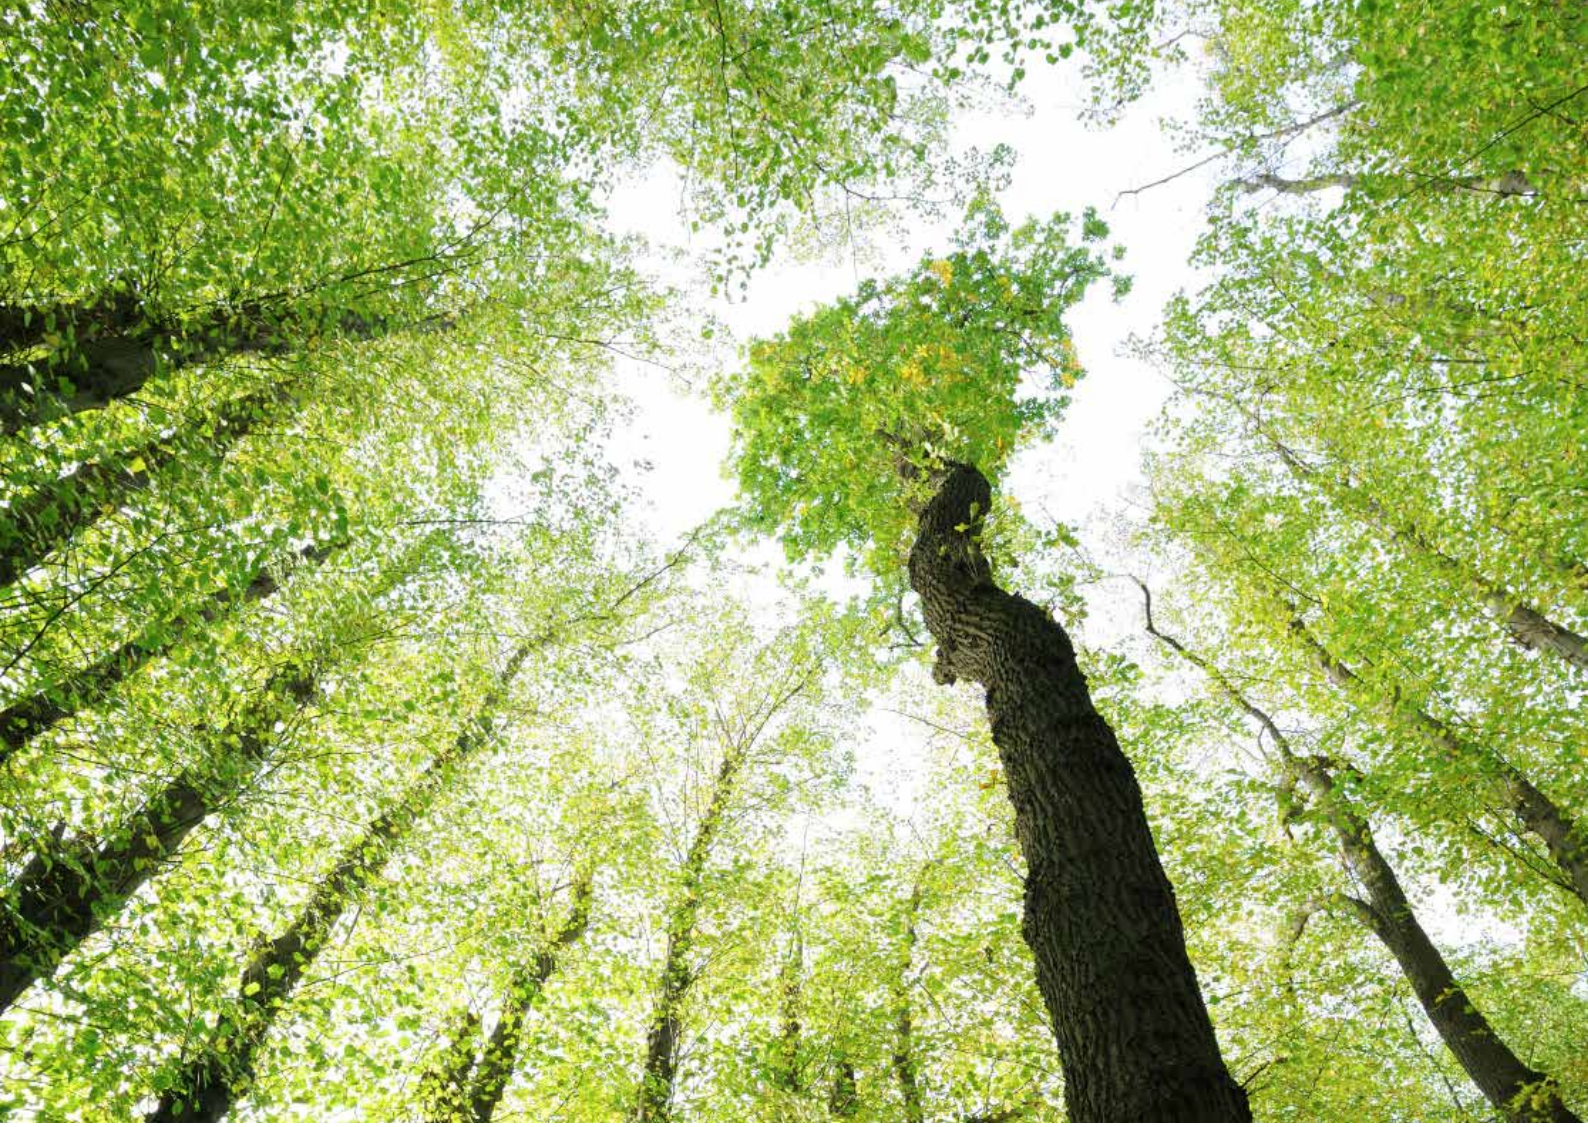

Engineered for the critical demands of any business, each TASKalfa colour multifunction device (MFD) features a sleek design on the outside with advanced imaging technology on the inside. The powerful combination of fast output speeds, Kyocera's unique long life technology, solution integration capabilities, and consistent high-image quality engineered into each TASKalfa MFD assures superior document imaging every time. That's TASKalfa's number one priority.

Integrating with KYOCERA Mobile Print technology for printing from and scanning to smartphones and tablets, as well as major third party solution partners for advanced cost recovery & security, document workflow, and advanced output management, the TASKalfa colour MFD series meets your day to day needs, every day.

ECO FRIENDLINESS.

Kyocera is an environmentally-concerned global organisation who rigorously follow the principles of the three R's – reduce, reuse and recycle. The importance of having respect for and conserving our environment has been etched in Kyocera's ethos from inception. Our worldwide green policies encourage conservation and recycling, along with the development of products and technologies that can actually minimise the impact on the environment. For example, our use of eco-friendly materials extends to our packaging, which is foam free, and is constructed from biodegradable cardboard. The inks are produced from vegetable and soy dyes and have absolutely no impact whatsoever on the environment, when recycled.

The standard long-life components of the TASKalfa 7551ci / 6551ci delivers up to 300,000 pages during the first preventive maintenance yield, meaning increased productivity for your business.

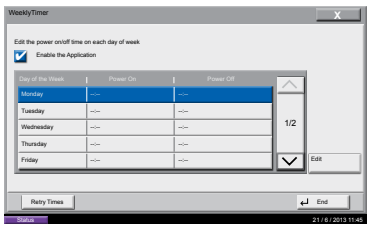

The TASKalfa 7551ci / 6551ci offers one of the lowest Typical Electricity Consumption (TEC) in the market and represents over a 35% decrease from the previous typical generation of colour multifunctional products which could save your business electricity costs. In addition, the TASKalfa 7551ci / 6551ci provides deep sleep mode which consumes less than 2 watts of electricity, potentially adding to your savings. Also, to help minimise your environmental footprint by reducing your paper usage, the 'blank page skip' feature will not copy a blank page from your pile of documents.

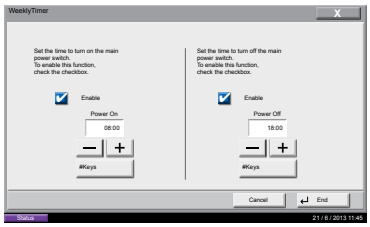

SUPERIOR USABILITY THAT INCREASES YOUR PRODUCTIVITY.

WEEKLY TIMER

Weekly Timer allows you to store machine on/off times for each day of the week and set the machine to automatically turn on and off at those times, saving both energy and money. These devices do not depend on your staff remembering to switch them off. Weekly Timer is installed on the machine as a standard application.

INNOVATIVE TECHNOLOGY

The user-friendly colour touch screen control panel provides robust document handling and ease of use at your fingertips. Newly designed to incorporate the 'Home screen' with the push of a button, this control panel allows easy swipe with your fingertips like you would a smartphone or tablet.

Customised pre-set shortcuts for up to 50 unique workflows and the commonality of this colour touch screen control panel, to the TASKalfa 7551ci / 6551ci, lets you get on with your work even faster.

ADVANCED USB INTERFACE

Be in control of your documents on the go. Conveniently print-from, and scan-to, any USB drive right from the touch screen control panel in PDF, JPEG, TIFF and XPS file formats.

ADVANCED SOLUTIONS.

HyPAS™

Businesses today are challenged with reducing output costs whilst maximising office productivity. Kyocera's open software development platform allows you to integrate the device into your existing business workflow in exactly the way you need it. Hybrid Platform for Advanced Solutions (HyPAS) transforms the device into a business tool that goes beyond the traditional functions of any normal device. These MFDs can be uniquely configured to interface with specific business applications like your document management system (DMS) or your inventory warehouse system directly from the control panel.

ADVANCED & SECURE NETWORK SCANNING & PRINTING.

The TASKalfa ci series is equipped with a standard network interface compatible with network protocols such as TCP/IP (IPv4), TCP/IP (IPv6), IPX/SPX, NetBEUI, IPSec, and AppleTalk. It enables network printing on Windows, MAC, UNIX, NetWare and other platforms. These devices enable printing from different paper sizes from the paper cassettes as well as tab paper printing for organisation of your important documents.

Whether you're scanning to your PC, FTP site, document box, USB device, or email, the TASKalfa ci series ensures secure scanning supporting SMTP over SSL for your peace of mind. These devices also support the latest WEB protocols in order to send and receive from mail accounts such as Gmail and Hotmail.

At the control panel the high compression setting dramatically reduces the file size of your document, whilst you can opt to enable file size scanning to determine the size of your scanned files prior to sending to your email, thus ensuring you meet your company's IT size restrictions over the network. For PDF archival, the TASKalfa series also features PDF/A scanning to ensure you meet PDF archival ISO regulations within your company.

ADVANCED FUNCTIONALITY.

The TASKalfa ci Series is extremely productive, offering fast scanning and finishing speeds, matched to high-capacity finishing options and high-volume paper feeders, designed to exactly suit your specific requirements. Save time and reduce paper waste by printing on both sides with the standard duplex unit, or by scanning your documents and sending them as digital files in to your workflow. Choose from a number of paper feeders to suit different papers and formats, for fast continuous printing and high volume operations.

PROFESSIONAL 7-BIN MAILBOX

The 7-bin mailbox sorter allows for faster and more efficient organisation of print outs for your business office.

ROBUST 4,000 SHEET FINISHER

This robust finisher supports multi-position stapling and a variety of paper weights. Options include 2/4 hole punch, 7 bin mailbox and booklet folding for all your advanced finishing needs.

ON BOARD DOCUMENT STORAGE

Create a simple way for you to store, secure and access critical documents at the device through TASKalfa's unique on-board Document box.

PROFESSIONAL BOOKLET FOLDING

Fold, tri-fold and saddle stitch booklets, up to 16 individual sheets from A4 to A3, for that professional touch in-house.

STANDARD FAST DUAL SCAN DOCUMENT PROCESSOR

At less than one second per page, its dual scan capability dramatically improves your productivity and handles mixed originals with ease for a powerful scanning solution in both full colour and black & white.

WIDE 10.1" COLOUR TOUCH SCREEN CONTROL PANEL

The user-friendly colour touch screen control panel provides robust document handling and ease of use at your fingertips.

ADVANCED USB HOST INTERFACE

Conveniently print-from, and scan-to, any USB drive right from the touch screen control panel in PDF, JPEG, TIFF and XPS file formats.

VERSATILE MULTI-PURPOSE TRAY

A standard 150 sheet multi-purpose paper tray can handle mixed media types and up to 300g/m2 for your special jobs such as banner printing. Optional Banner Guide allows for up to 10 banner sheets.

FLEXIBLE PAPER HANDLING

An innovative paper path design allows for a variety of paper weights through the trays, giving you the flexibility to satisfy virtually all your print and copy needs.
